# Transforming VET for Excellence: Priorities and Challenges

▶ *Technical Session- I : Presentation- II*  
**Advancing VET for  
Excellence: A Case Study**

▶ *Speaker*  
**Mr. Siddhartha Chaturvedi**

## ABSTRACT

Excellence in VET takes various forms. It is formed by the comprehensiveness of quality assurance mechanisms by the vertical and horizontal absorbcency in the VET systems by the national recognition in the labour market, mobility, market employability and career prospects and by the rich prospects to contribute in the lifelong learning. VET system and VET research is to improve the attractiveness of the VET for all stakeholders and to monitor the attractiveness. This paper dicusses a case study to focus on the advancing VET for excellence

## BRIEF CV

**Mr. Siddharth Chaturvedi** is presently working as Executive Vice President, AISECT and handles the entire Strategy and Operations for the Group's various activities. Siddharth has been instrumental in Group's growth on a pan-India basis in various verticals, as well as strengthening of Group's various initiatives in association with key Govt. of India priorities such as Skill India Mission, Digital India Mission and Start-up India Mission. Siddharth also handles the functioning of the 23,000 strong AISECT centre network, strategy for expansion and business diversification. Prior to joining AISECT, Siddharth has done his Bachelor's Degree in Electrical Engineering from MANIT, Bhopal and MBA from S.P. Jain Institute of Management and Research, Mumbai. Siddharth joined ITC Agri-business division after that, where he was a part of the team expanding the rural marketing, procurement and distribution channel and later on was responsible for setting up its Cash and Carry Retail Operations in North India. Thereafter, he moved on to IBM and worked on various Business Consulting engagements in the Consumer Products and Retail space. Siddharth heads several other committees and task forces in Govt. and Private space related to skill development, education, entrepreneurship, start-ups and innovation.
