

Technical Session- I

Transforming VET for Excellence: Priorities and Challenges

▶ *Technical Session- I : Presentation- III*
**Next Generation Vocational
Education and Training**

▶ *Speaker*
Mr. Sunil Dahiya

ABSTRACT

Vocational education and training (VET) play a vital role for the future economic growth of the country. There is a need to improve the VET system in line with the National Education Policy (NEP) 2020, and provide training to youth for the economic development of India. The high demand of skilled workforce in the future can be fulfilled by preparing the next generation in 21st Century skills and making them ready for the requirements of the Industry 4.0. Therefore, it is necessary to focus on the effective implementation of VET.

BRIEF CV

Mr. Sunil Dahiya has nearly three decades of experience in the skilling space. He is presently leading the skilling verticals globally for the Wadhvani Foundation. Building technology-based solutions and new learning businesses have been his forte for these years. As a tech professional, he has been driving education, training and technology based innovations for upscaling solutions in skilling space.
